### **OPERATIONS & MAINTENANCE ISSUES**

- 1) Bac-T samples for the month have been taken and are negative.
- 2) Found service line for the last home not on line. Installed meter pit and meter.
- 3) This address has water is turned off for lack of payment. After meter was installed, the resident turned the water back on. It now has a lock on the meter.
- 4) Still working out the bugs on the drive by reading.
- 5) Pump tested for two days on all of the wells with the exception of well 3.
- 6) All but two wells pump at a good rate.

### **OTHER BUSINESS:**

Freezing night time temps are here. Please disconnect any outside hoses from your house to prevent damage to your plumbing.

I will stay after each BOD meeting (when I can) for a short period of time to answer any questions regarding water treatment and distribution.
