

ARABIAN ACRES METROPOLITAN DISTRICT

MONTHLY OPERATIONS REPORT

December 13, 2019 to January 10, 2020

Submitted by: Lynn Willow, O.R.C/Operator

TOTAL WATER PUMPED

Control A 324,869

Control B 176,431

TOTAL PURCHASED WATER

Trucked – 0

(Amount actually received per each 4,000 gallon load is generally 200-300 gallons less due to standard and typical hauling losses)

OPERATIONS & MAINTENANCE ISSUES

- 1) Bac-T samples for the month have been taken and are negative.
- 2) Met with Mike from Aqu Works along with Keven Walker Dist. Mgr. to review and categorize main line replacement priority.
- 3) We are still completing some bucket test. So far 100% of tests have been exact.
- 4) Sate water testing was completed for 2019.
- 5) Once again, the new meters have all been certified from the factory as with in the American Water Works Association standards of 98.5% to 100% accuracy.

OTHER BUSINESS:

Freezing night time temps are here. Please disconnect any outside hoses from your house to prevent damage to your plumbing.

I will stay after each BOD meeting (when I can) for a short period of time to answer any questions regarding water treatment and distribution.
